AVIATION MANAGEMENT - BACHELOR OF SCIENCE	
General Information	The Undergraduate Aviation Management Program takes pride in its rich curriculum, designed to build a strong foundation in both management and aviation through a series of major and core courses. The program's comprehensive curriculum introduces students to the realm of management and aviation, equipping them with in-depth knowledge and advanced skills required in both fields. The Undergraduate Aviation Management Program is also enriched with a diverse set of electives in different disciplines, giving students the opportunity to specialize in their areas of interest. Adopting a truly international vision, the program also aspires to provide international exchange and internship opportunities to students with distinguished academic records.
Qualification Awarded	Students who successfully complete this program are entitled to receive a Bachelor's degree in Aviation Management.
Level of Qualification	This program is an undergraduate level program.
Qualification Requirements and Regulations	The regulations for qualification are determined by "Ozyegin University Rules and Regulations for the Undergraduate Programs" and "Ozyegin University Rules and Regulations for the English Preparatory Program". To be able graduate from the Program, students have to complete 240 ECTS successfully.
Provisions for Registration	OzU Undergraduate Programs admit eligible students through the central placement examination administered by the Center of Student Selection and Placement (OSYM), as well as through special aptitude tests, international applications, horizontal transfer applications, and special student and exchange programs. Except for placements by OSYM, all admission and enrollment procedures are governed by the principles and procedures set forth by both the Senate and YÖK.
Specific Arrangements for Recognition of Prior Learning	Depending on the degrees awarded, courses taken as part of a degree (completed or not completed) may lead to recognition of these as prior learning by the program. The students who have taken courses in another institution in Turkey or abroad can ask for credit and grade transfer. The executive boards of relevant program will decide on the courses to be transferred.
Examination Regulations, Assessment and Grading	Evaluation and assessment methods for each course are defined in the 'Course Description Form' by the lecturer of course. These requirements and regulations are specified in the relevant articles of the "Ozyegin University Rules and Regulations for the Undergraduate Programs"
Education Type	Full Time Education
Graduation Requirements	This degree is awarded to students who have successfully completed the required and elective courses in the curriculum earning 240 ECTS, have a least D from all courses, have a Cumulative Grade Point Average of at least 2.00 on a 4.00 scale and complete its mandatory internships successfully.
Occupational Profiles of Graduates	The Undergraduate Aviation Management Program is focused on courses on airline management, airport management and air transportation management as well as the basic management courses; and is designed to produce graduates who will be recruited for management level positions both in the national and international aviation. The program's managerial focus and rich curriculum offering operational know-how will vest its graduates with the necessary skills and competences to assume managerial responsibilities not only in the aviation industry but also at other companies in different industries as well.
Access to Further Studies	Students who graduate from this program can apply to study in graduate programs.
