

UNDERGRADUATE RESEARCH SUMMER PROGRAM

We present our Undergraduate Research Summer Program, which aligns with our identity as a research university and aims to provide undergraduate students from different countries and universities the opportunity to experience scientific research processes.

Program Objectives

- To provide undergraduate students with scientific research experience,
- To enhance collaboration by offering opportunities to work on interdisciplinary projects,
- To contribute to the career orientation of students interested in research,

Program Details

- Program Period: June – August 2026
- Scope: Each of our faculty members will define research projects in their field and guide students. Accepted undergraduate students will actively contribute to scientific research processes as part of a voluntary summer internship.
- They will take responsibility in ongoing research projects conducted by faculty members.
- Participants: Undergraduate students from various universities in Turkey or ÖzÜ students can apply to the program.
- Process: Student selection will be based on evaluations by the relevant faculty members.
- Support: Students participating in the program will be provided with laboratory access, technical training, guidance support, accommodation, and lunch. Accommodation will be available during the summer term, and if the project continues beyond the summer term, services (excluding accommodation) will still be provided.

Frequently Asked Questions (FAQ)

1. Can international students apply?

Yes, students enrolled in undergraduate programs outside Turkey can apply.

2. Can Özyeğin University students apply? Yes, they can.

Are there any restrictions on project start, end, and duration?

The project timeline will be determined by the supervising faculty member, provided it takes place during the summer term.

3. Will continuity be expected from accepted students?

Yes, students are expected to maintain communication and/or be present in an environment where they can complete tasks assigned by the project supervisor.

4. What are the sanctions for uninterested students?

If an accepted student fails to complete tasks deemed necessary by the supervisor or behaves in a disruptive manner, they will be warned once (verbally and via email). If the behavior continues, they will be removed from the program.

5. How can I apply to the program?

You can access information about the program and application forms from the links below.
